### Memory Foam

The SleepRight Side Sleeping Pillow is made from premium viscoelastic memory foam, which is a pressure relieving material that is sensitive to body temperature and weight. As your head settles into the facial cradle, the memory foam will softly conform to your personal anatomy. Then, it will automatically adjust to your body temperature and weight as your head and neck stabilize in a resting place. When equalization between head weight and the elasticity of the memory foam is achieved, your head and neck posture will be ideally aligned with your spinal column. This greatly minimizes the side effects of pressure points, which is a benefit unavailable in regular pillows.

### Rayon from Bamboo Cover

Includes a machine washable, hypoallergenic pillow cover made with rayon from bamboo, which provides softness and breathability.

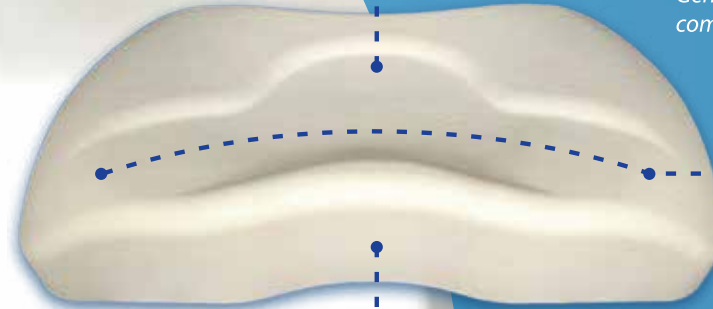

### 5-Year Warranty

The SleepRight Side Sleeping Pillow is guaranteed to be made of the highest quality memory foam available with a 5-year limited warranty.

### Made in USA

#### FULL FACIAL CRADLE

- Designed to reduce pressure on the jaw and ear, helping to relax the facial area.
- Gently cradles the face, providing comfort and support.

#### LEFT & RIGHT AIRWAY SYSTEMS

- Maximizes airflow to help improve breathing and reduce snoring.

#### 12° SHOULDER CRADLE

- Supports the head and neck to provide orthopedically correct spinal alignment.
- Reduces body weight impact on the shoulder, increasing blood flow to the arms.
- Accommodates the angle between your neck and shoulder while sleeping on your side.
